

## Fortuna Legal and Alara Resources Ltd

Fortuna Advisory Group has assisted Alara Resource Ltd (ASX: AUQ) since 2018 as its transitions from mineral explorer to minerals producing company. Fortuna has been providing outsourced Company Secretarial, CFO and General Counsel services to Alara, helping steer it through the many strategic challenges it has faced over that time.

As a listed company with a great project but no cash flow, it was opportune for Alara to obtain certain key executive services on an outsourced basis, rather than incurring the cost of full-time personnel in these roles.

## Benefits in Action

Key benefits delivered by Fortuna's combined CoSec/CFO/General Counsel outsourcing services seamlessly combined include:

- Negotiating and advising on a wide range of agreements, saving the company a large amount in external legal fees
- Providing legal advice on corporate law issues arising under listing rules and Corporations Act;
- Streamlined the process of consolidating the accounts of numerous Australian and offshore subsidiaries
- Seamless management of bookkeeping and CFO processes, introducing automation to bring efficiencies and reduce costs
- As a full-service consulting and advisory group, Fortuna brought additional resources to bear when needed, including tax consulting and general insurance broking.
